

*The early part of this century saw the advent of Prohibition in the U.S. This forced the liquor trade underground to a series of backrooms of illegal clubs. Such a club was called a Speakeasy, because too much noise threatened discovery by the law.*

*A Speakeasy operated behind the cover of a legitimate business front. In the midst of this glamorous period, stood the proud Hotel Charlotte, a landmark of the South.*

*To preserve a bit of the glamour of this era, we acquired a few of the Hotel's fine furnishings and created our own Speakeasy under the guise of the old Hotel. The valet doors are cherry with a mahogany veneer bubble and weigh 155 pounds each. The bar, which is 1 1/2 solid mahogany, was brought up from Atlanta in 1918*

*Look around and enjoy a bit of the past when times were simple, good food and drink were so much fun... After all, it was against the law.*
